

Protecting Human Health

- ◆ **Public officials at all levels must provide unambiguous and consistent guidance on self-protection, family member care, seeking medical care, and minimizing disease transmission.**
- ◆ **Federal Government vaccine goals are:**
 - **To establish and maintain stockpiles of pre-pandemic vaccine adequate to immunize 20 million persons**
 - **To expand domestic influenza vaccine manufacturing surge capacity**
- ◆ **Federal Government antiviral medications stockpile goals are:**
 - **To establish and maintain stockpiles adequate to treat 75 million persons, divided between Federal and State stockpiles**
 - **To establish and maintain a Federal stockpile of 6 million treatment courses reserved for domestic containment efforts**
- ◆ **The Federal Government will also:**
 - **Establish credible distribution guidelines to assist State, local, and tribal governments and the private sector**
 - **Expand guidance on deploying limited Federal assets and resources to support local medical surge**
 - **Establish "real-time" clinical surveillance**
 - **Establish infectious disease models**
